

Route 9, Chapman Boulevard to Route 30 Concept Development Study

Virtual Public Information Center ■ April 25, 2022 – May 9, 2022
Cities of Somers Point, Linwood, Northfield, Pleasantville, and Absecon
Atlantic County, New Jersey

The New Jersey Department of Transportation (NJDOT) is committed to developing transportation improvements that balance transportation needs, safety, the environment, community concerns, and cost. NJDOT will hold a Virtual Public Information Center (PIC) to provide local residents and businesses with information on the **Route 9, Chapman Boulevard to Route 30 project** in the Cities of Somers Point, Linwood, Northfield, Pleasantville, and Absecon, Atlantic County.

PUBLIC MEETING DETAILS

Due to the COVID-19 Public Health Emergency the Public Information Center will be held virtually. Please visit the following website at a time that is convenient for you between **April 25 and May 9, 2022**.

www.Route9-pic.com

You will have an opportunity to review the presentation, submit questions, and leave feedback. Property owners with rental units are advised that tenants are also invited and encouraged to participate.

PROPOSED PROJECT

The existing pavement along the 8.5-mile project corridor has reached its terminal condition. This project seeks to replace the existing pavement and improve general traffic operations and safety along the corridor. Proposed improvements are listed below:

- Full depth pavement reconstruction of mainline and shoulders
- Replacement/reprofiling of the bridge over Absecon Creek (Structure No. 0101-150) to mitigate flooding
- ADA upgrades to substandard curb ramps
- High visibility crosswalks & upgraded signage
- Sidewalk installation and upgrades
- Improved bicycle facilities: 8' wide shoulders where feasible or alternative bike routes
- Upgraded traffic signal equipment and signal timings
- Improved access throughout corridor including modifications to non-compliant driveways
- Roadway lighting enhancements

- Improved drainage systems where needed
- Incorporation of Stormwater Management facilities

SCHEDULE

Concept Development: Spring 2020 – Spring 2023
Prelim. Engineering: TBD
Final Design: TBD
Construction: TBD
